When I train I like to push my self as hard as I can but sometimes I feel like I hit the wall. My training consists of running, biking, weight lifting, wrestling, boxing, kick boxing, anything that will take the heart rate up. I know my body inside out and I know by adding Creatine and Glutamine from Vitaceuticals Inc. patented time release has taken my performance to another level. Just look at the results of my last super fight for K-1 after just 5 weeks of using the product I looked better than ever, even after two years off from competition. In most cases fighters would look rusty, but that was not the case with me. I felt better than ever.

World Champion,

Cung Le

BORN TO FIGHT

MARTIAL ARTS SHOOTOUT
&
SUPER FIGHT NIGHT

SPECIAL
CELEBRITY GUESTS

"RAMPAGE"
JACKSON

KATHY
LONG

www.borntofight.com
(408) 729-4900

A word from Cung Le

It is my pleasure to extend a personal invitation to martial artists of every style. Please join me at the BORN TO FIGHT III MARTIAL ARTS SHOOTOUT AND SUPER FIGHT NIGHT. This years events will again be divided into two segments. The first half will be the MARTIAL ARTS SHOOTOUT day tournament and the second half will be the SUPER FIGHT NIGHT evening bouts. Scheduled for July 26th, 2003, it will be hosted in San Jose at the Gymnasium of Mt. Pleasant High School.

As a martial artist with a background in Tae Kwon Do, Jiu Jitsu, wrestling, and traditional Kung Fu, I want to encourage competitors from all martial arts backgrounds to participate in this very competitive tournament. Like many, of you I knew nothing about the style of Sanshou fighting until I had the opportunity to compete. I participated in my first Sanshou tournament back in the mid 90's. At that time, I held a black belt in Tae Kwon Do and was studying traditional style Kung Fu, but knew I was ready for something different. After my first taste of awesome competition I was hooked!

This year's event is on track to achieve the same great success as BORN TO FIGHT I and II. In fact, with interest already brewing from some of the approximate 3000 attendees of last years packed house I am sure it will be more than explosively exciting. I am confident with many returning competitors from backgrounds in point fighting, Karate, Kung Fu, Muay Thai, Jiu Jitsu, and Olympic style Tae Kwon Do that the fight for a coveted BORN TO FIGHT Gold Medal will be challenging, but in the reach of all that train hard as champions. To add to the excitement and prestige, the best fights of the tournament are being filmed for a documentary pilot.

The grand experience of SUPER FIGHT NIGHT will be sure to impress all spectators. This year the reputation of BORN TO FIGHT crosses the nation to bring top amateurs from all across the country to challenge some of our own top west coast amateur champions. Obtaining a BORN TO FIGHT title is one of the most prestigious of the year. This will be an event to remember for all who wish to see the champions of the future.

I look forward to seeing all of you at the BORN TO FIGHT III MARTIAL ARTS SHOOTOUT AND SUPER FIGHT NIGHT. I wish the best of luck to all competitors and patrons as they travel from near and far to achieve new levels of greatness. Please feel free to get up to date event details from WWW.BORNTOFIGHT.COM. For more specific questions I can be reached at cungle@cungle.com or (408) 729-4900.

Sincerely,

Cung Le

Cung Le

The World's First and Only Timed Release Nutritional Products

The Science in Supplementation.

Vitaceuticals Inc. is pleased to introduce to the fitness world the first *truly* timed release nutritional supplements. The benefits to the athlete and fitness enthusiast are incredible! Now, anyone interested in maximum results will have the products to fuel their workouts and take them to the next level in performance!

How do we do it? With our *patented* liposomal delivery system. A liposome is a tiny particle formed by a phospholipids membrane that mimics that of a living cell. In laymen terms, we have brought to the supplement world a method to make existing supplements work better! Our Creatine and Glutamine products provide up to 8 hours of continuous delivery into the blood stream for up take to the skeleton muscle system. The result is more energy and greater rates of recovery.

Just ask Kathy Long, a 5 Time World Champion Kick Boxer "In part my training consists of running, striking the heavy bag, grappling and weight training.., and more. I began using Vitaceuticals Creatine and Glutamine three weeks into my training, within one week of taking the Creatine" Here are just some of my results. I took 4 minutes off my 3 mile running time. I took two minutes off my 5 mile running time. I have never felt stronger while striking the heavy bag or lifting weights. I wish I had this product when I was competing professionally.

Or world champion Cung Le- "When I train I like to push my self as hard as I can but sometimes I feel like I hit the wall. My training will consist of running, biking, weight lifting, wrestling, boxing, kick boxing, anything that will take the heart rate up. I know my body inside out and I know by adding Creatine and Glutamine from Vitaceuticals Inc. patented time release has taken my performance to other level. Just look at the results of my last super fight for K-1 after just 5 weeks of using the product I looked better than ever, even after two years off from competition. In most cases fighters would look rusty, but that was not the case with me. I felt better than ever."

The choice is now yours. Don't make the hours spent in hard training be wasted by feeding your body with inferior nutritional products. You deserve the best!

"It's has taken 4 years of extensive research and testing to perfect our products. We don't take anything for granted.., and that includes each and every one of our users"
David F. Miller President and CEO
